

**“All New
COMPACT!”**

"X200B"
Technical Data

Frequency band

315 / 418 / 429 / 433 / 447 /
470 / 868 / 915 MHz / 2.4 GHz

Number of functions

up to 3 on/off + EMO

Power supply

90~460V AC / DC

Stop/Safety contact rating

6A

Command contact rating

5A (250V AC)

Command response time

~ 25 ms

**Safety category for the
Stop protection (EN ISO 13849-1)**
PL d (optional)

Operating and storage temperature

(-20°C)~(+55°C) / (-40°C)~(+65°C)

Protection degree

IP65

Housing material

PA6 (GF30%)

- Status LED
- Internal BootLoader,
up firmware to the date
by using computer
- Wireless pairing to transmitter

Weight

approx. 295g

Size

122 × 86 × 34mm

Antenna

Internal
SMA External
SMA 2M / 5M cable magnetic

So Mini, so Lightweight

Due to its small size, you can install it easily and need not too much space.

Pretend to be Wireless

It can be connected with the wire through the hole at the back of the device.

“X200B practical usage”

Considerate Buttons

You can operate the receiver directly without the transmitter — just push the buttons on the receiver. Moreover, it can be operated simultaneously by two people.
